PROFESSIONAL SUMMARY

Results-driven Computer Engineer Graduate (Pass-Out in May 2026) with hands-on internship experience in **backend development** using Node.js, Express.js, and MySQL. Proficient in **REST API design**, relational database management, and server-side logic. Strong foundation in **Data Structures and Algorithms** with consistent competitive programming practice. Seeking a software engineering role to deliver scalable, production-ready solutions.

EDUCATION

Vishwakarma Government Engineering College (VGEC) <i>B.E. Computer Engineering CGPA: 8.30 / 10</i>	Ahmedabad, India 2022 – 2026
Parth School of Science and Competition <i>HSC (GSHSEB) Percentage: 80%</i>	Vadodara, India 2020 – 2022

TECHNICAL SKILLS

Languages: Java, JavaScript
Frontend: React.js, Tailwind CSS, Next.js
Backend: Node.js, Express.js
Databases: MySQL, MongoDB
Tools: Git, GitHub, REST APIs, Redux Toolkit

EXPERIENCE

JSP Infotech <i>MERN Stack Developer Intern</i>	Surat, India <i>Present</i>
- Assisted in developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js. - Implemented basic authentication flows including login and registration using JWT concepts. - Worked with Git for version control including commits and branch-based workflow. - Supported development of REST APIs and frontend integration under mentorship.	
eSparkBiz <i>Software Development Intern</i>	Ahmedabad, India <i>Jan 2026 – Apr 2026</i>
- Developed RESTful APIs using Node.js and Express.js for backend modules. - Designed MySQL database schemas for application features and data modeling. - Implemented validation logic and tested APIs to ensure reliable data handling.	

PROJECTS

Institute Timetable Generator <i>Personal Project React, TypeScript, Tailwind CSS, MongoDB</i>	Live Code <i>May 2026 – June 2026</i>
- Built a full-stack timetable generation system supporting 90+ faculty members across multiple departments. - Designed a conflict-free scheduling algorithm handling 500+ lecture allocations with automatic room assignment. - Developed and deployed the application using React, Node.js, Express.js, MongoDB Atlas, and REST APIs. - Implemented dynamic data modeling to support configurable institute-specific scheduling rules and constraints. - Optimized scheduling logic to handle multiple divisions and resource constraints without timetable conflicts.	
O2 Positive – Gamified Social Media Platform <i>Internship Project HTML, CSS, Node.js, MySQL</i>	<i>Jan 2026 - Apr 2026</i>
- Assisted in developing a gamified social media platform where users earn points and boost post visibility. - Contributed to frontend development for login, registration, and core UI components using React.js. - Supported backend CRUD operations and assisted in MySQL database schema design for core modules. - Helped in integrating REST APIs between frontend and backend for smooth data flow and functionality. - Participated in debugging and testing features to ensure stable application behavior across modules.	

ACHIEVEMENTS

Top 7% in JEE Mains 2022 among 9,05,000+ candidates.
Top 4% in GUJCET 2022.
Qualified VITEEE 2022.
